

EVIT / CAREER & TECHNICAL EDUCATION ROADMAP

Freshman to Senior Year | Career training, certifications, dual enrollment, and work-based learning

WHAT EVIT OFFERS:

Hands-on CTE programs | Industry-focused training | High school credit | Selected dual-enrollment / college-credit opportunities | Internships, clinicals, and work-based learning

9TH

EXPLORE

- Start thinking about EVIT while building your ninth-grade schedule so required graduation courses can fit around future career training.
- Add EVIT or another CTE goal to your Education Career and Action Plan (ECAP).
- Explore program areas such as health sciences, engineering, information technology, construction, manufacturing trades, public safety, transportation, culinary, education, and media.
- Protect your GPA, attendance, behavior, and graduation progress so you are ready to apply when eligible.

10TH

PREPARE

- Narrow your career interests and compare EVIT programs, locations, class schedules, required tools, fees, and program length.
- Meet with your school counselor or homeschool advisor to confirm how EVIT credits will fit your graduation plan.
- Build transportation and scheduling plans early; 4-hour blocks require students to provide their own transportation.
- Gather application documents such as an unofficial transcript and required residency, birth-certificate, and immunization records.

11TH

TRAIN

- Attend EVIT for part of the day while completing academics at your home high school or homeschool.
- Students in standard sessions earn 0.75 credit per quarter, or 3 credits per year, with a passing grade; 4-hour block programs can earn 4 credits per year.
- Use designated dual-enrollment, articulation, or prior-learning opportunities when available in your program.
- Build technical skills, employability skills, work-based learning experience, and relationships with instructors and industry partners.

12TH

LAUNCH

- Complete your EVIT program requirements and continue meeting graduation requirements at your home high school or homeschool.
- Use your training to pursue industry credentials, employment, apprenticeships, community college, or university pathways.
- Update your resume with EVIT coursework, certifications, clinicals, internships, CTSO participation, and technical skills.
- If your program is unfinished at graduation, ask EVIT about current 13th-year I-DIF or CTED completion funding options.

CURRENT EVIT HIGH SCHOOL FACTS (2026-27 planning)

Who can attend: EVIT is tuition-free for eligible high school students who live within the boundaries of 11 East Valley school districts, including district, charter, private, and homeschooled students.

Typical schedule: AM 8:00-10:35 or PM 12:00-2:35; some programs use 4-hour blocks.

Homeschool students: EVIT accepts homeschool applicants and lists transcript, discipline records, immunization or waiver, residency, and birth certificate among current admission items.

Application timing: EVIT's high school admissions page states secondary enrollment opens November 1.
